Category:Aperture Publishing books Category:Medical manualsQ: web scraping a list from a particular url This is what I have written so far. from lxml import html import urllib2 from bs4 import BeautifulSoup import re import re2 as re3 import urllib.request import requests # Open a webpage with requests r = requests.get("") # Create a BeautifulSoup object soup = BeautifulSoup(r.content) # parse the soup all_entries = soup.findAll('div', {'id': 'show_player_content'}) print(all_entries) I am trying to scrape the pages and use the contents of the div with id=show_player_content to create a list. What can I do to access the list? A: I would do this like this: from lxml import html import urllib2 from bs4 import BeautifulSoup import re import re2 as re3 import urllib.request import requests # Open a webpage with requests r = requests.get("") # Create a BeautifulSoup object soup = BeautifulSoup(r.content) # parse the soup list_of_links = [] for div in soup.findAll('div', {'id': 'show_player_content'}): list_of_links.append(div) print(list_of_links) AUSTIN (KXAN) — In late 2017, KXAN reported a man was stabbed in East Austin near East Riverside Drive and East Cesar Chavez Street. We now know the victim of that stabbing, 24-year-old Pabello Cisneros, was murdered. On Thursday, police confirmed the suspect in that 2017 stabbing case has now been arrested and charged in the murder. Related: Woman killed after reportedly being struck by vehicle in East Austin Justin Stocks, 30, of Austin was booked into the Travis County Jail. 2d92ce491b
