Write a review My review Review from Reviews Awesome work Erelive Data recovery for android is a awesome android data recovery software it works perfect i tested it by using my galaxy tab 3 a/d and it worked perfectly Worked like a dream!!! After all the troubles I've had with

---

android phones (my Samsung Note died when it was wet and I couldn't get rid of the water) this is just what I was looking for to fix all that data. Already got my apps and photos back!!! Super fast, easy and efficient! Downloaded the trial version, 30 mins later their website had gone down, I had to use incognito mode and now I have

**What's New in the?**

Erelive Data Recovery for Android is a data recovery software, which works wonders in assisting you get back any and all data from your Android device. The different between Erelive Data Recovery for Android and other recovery apps: A data recovery tool should let

---

users carry out a thorough search and recovery of the files they lost. This software however, comes with its own set of limitations, among them, the inability to recover the most recent files, certain types of file of which can only be recovered using a separate file recovery tool, files that are empty or not accessible by the Android operating system, and some types of files which are only recoverable using a professional file recovery tool. With Erelive Data Recovery for Android, you get to save time and have the assurance that you are going to get back your most important and sensitive data, regardless of the type of Android device it is. This Android data recovery software is user-friendly and easy to

---

operate. This tool, however, will help users to recover deleted data that is recoverable on your Android device. This software works efficiently at recovering photos and videos that are most of the time, lost due to the following: - Factory Reset - Master Reset - Rooting Error - ROM Flashing - Locked, Water Damage, Dead, Stolen In fact, this Android data recovery software can recover all of your Android data even if you have accidentally removed the data partition from the phone. All the deleted files can be recovered back on your Android device even in the case they were removed accidentally or because of a mistake. This Android data recovery tool allows you to quickly recover deleted text messages, WhatsApp, Facebook,

---

Gmail, Outlook, Spider, passcode, contacts, Gallery, videos, music, and much more. If you're running out of storage space on your Android device, this Android data recovery software can help you recover the files that were deleted from your device's phone memory. The Android data recovery software also allows users to recover the other files besides photos and videos, such as documents, SMS, call logs, iTunes, Windows Photo Viewer, Calculator, Power Point, Excel, etc. Is Erelive Data Recovery for Android the best Android data recovery app? Well, this isn't for sure, Erelive Data Recovery for Android is among the many Android Data Recovery software applications out there, but it is the only one that offers an

---

app-based solution as

---
