Adblocker is an application that is able to automatically detect adverts on websites and filter them out. Google Chrome and Mozilla Firefox extensions are among the most popular adblocker tools that are used by many people. However, this adblocker is not designed to remove ads completely but helps to block the most annoying ones. It's possible to choose the advertisements you want to display and the rest of the ads will be either filtered or will not be displayed at all. You will be able to see which websites use ads and you will be able to block them. Moreover, you will be able to find new websites and programs that allow the display of ads. Finally, Adblocker will help to speed up your browsing experience and save your battery. Adblocker is a free application and it is available in English, German, French, Italian, Russian, Japanese, Brazilian Portuguese and Spanish. What's New in the Movie Icon Pack 73?

Icon Pack has been designed to bring a fresh and realistic look to your desktop. All the items in the pack have been meticulously crafted so you can rely on them to provide a real impression of blockbuster motion pictures. There are 35 different icons and you can use them as you wish in all desktop applications that support the format. This set is ideal for general use, and you can apply them as a set or just use a couple of icons. Movie Icon Pack 73 Features: 35 different movie-style icons PNG and ICO file formats Easy customization options Quickly change the look of your desktop Are you tired of the same old, flat icons on your desktop? You can now customize your desktop with different icons that look like those used in blockbuster movies. These icons are presented in five different categories, each of which contains 35 different icons. You can easily change the background, background blur, and color of the icons to provide a smooth and integrated look. All the icons are organized in five categories: User interface, UI tools, UI elements, UI details, and UI effects. Each category contains a couple of icons that provide different functionality. The icons are all absolutely free and are available in both PNG and ICO format. Each icon has a high-resolution option that you can use for full-screen applications. You can choose the color of the icons, blur the background, and choose the background from the image you select. User interface: The user interface category includes icons that provide different functions. For example, you can use them to replace the system browser, open programs, and display them on the taskbar, and so on. These icons represent a status bar, taskbar, and desktop folders, as well as a window and files. UI tools: The UI tools category includes icons that you can use to get to different places in your computer, open programs, and display information about your PC. You can use the icons to open a desktop folder, change the contrast, display image previews, and get more information about your device. UI elements: The UI elements category contains icons that you can use to manage the desktop and perform tasks related to your computer. Some of the icons are used to open system information, change the wallpaper, and get to the trash bin. UI details: The UI details category contains icons that you can use to create desktop shortcuts, control the system, and perform different tasks. The icons in this category can be used to open the Control Panel, control the power, check your battery life, and get a message. UI effects: The UI effects category contains icons that you can use to change your device's settings. Some of the icons in this category are used to open the notification area, change the window size, and
