
F1 Depth Of Field Plugin For After Effects |WORK| Free!

Fast Bokeh Pro v2 is a plug-in for After Effects that creates a smooth depth of field bokeh blur using a depth map. It's very fast, handles the edges correctly. You can choose from three blur backgrounds or use your own. The bokeh will be automatically created according to your photo. Very useful for blurring backgrounds to show depth of field or just blurring because the image is blurry on all frames.
