What's New in the Scribbly?

== A light text editor which includes an extra feature of scribbling on-the-fly. It is a simple and easy to use virtual writing pad, designed to be used to just scribble without typing. It includes a real-time preview, shortcut keys, auto-saving and emailing features. Played with Scribbly for a few minutes while it was still in beta. Installed it and did not like at all. It's too complicated to set up. Installed the demo version and it worked better than the 30-day trial version. Alex - 22 July 2010 Soundyol Mohit - 22 April 2013 This is a really great application. I have used it for a while and the package is way easy to handle. It is just like an easy way to post writings. Anyways, I would suggest installing the full package. prajwajit11 - 11 May 2013 Fun and easy to use I am a complete novice when it comes to ios apps but i gave Scribbly a try and I really like it. I have no idea how to use this app but i am glad I gave it a try. I didnt want to try it out and waste my time. Gill - 29 June 2013 Scribbly is a good app, the only problem is that you need to open the app from your ios gallery to actually set scribbling on. Mike - 15 March 2015 Nothing else to it other than what it says, Scribbly is another ios writer. Get the scribbly for free from the apple store. sachin - 19 May 2015 I tried scribbly. It isnt good. I wish I never download it Goma - 30 June 2015 Idk anything about it. Anonymous - 23 March 2017 Ok Anonymous - 23 March 2017 Ok Casper - 28 March 2017 I don't like the product because of that limit of free resources and no possible way to upgrade it. Sometimes it freezes and eats up the resources on my phone. GRAPH - 29 March 2017 It is good but I suggest to add a Gmail address rather than Facebook and twitter, so that

people can send you their writings in your gmail box. Anonymous - 30 March 2017 Good app I like how easy it is to use. Anonymous -
