in Version 3.5.0.0?

BeastLocker supports

---

new skins and more color themes. New skins with two new color themes have been added. The configuration panel can now be used with other MS Office 2013 versions. The configuration panel can

---

now be used with other Office 2010 and 2012 versions. Henceforth, BeastLocker will automatically launch the correct variant of the 32bit (x86) and 64bit (x64) setup file. For example: if you are using Office 2013 Home

---

and Student (for 32bit systems), you will need to download the 32bit variant of BeastLocker-Setup.exe. If you are using Office 2013 Professional Plus (for 64bit systems), you will need to download the 64bit variant of

---

BeastLocker-Setup.exe.

Program's full

uninstaller helps

uninstall BeastLocker

(and uninstalling it

means uninstalling all of

its files and other files

installed in your

system). There is no

more help section in the

---

program because it's only an installer. There is no longer an option to change the settings in the Configuration Panel. If you decide to change your settings, you have to open the Settings Manager and change the settings manually.
