We've just released the official Portal update, marking the arrival of a huge new feature: the Laboratory. We're sure you'll find this a much better experience than simply being teleported. The Laboratory has a bunch of new areas to explore and portals to blast away at. Each laboratory room has a different theme and challenges. For example, in the Styler Lab, you can unlock all of the trickery by destroying Styler's Torment. The Laboratory feature is in and will be updating automatically over the next few days. You can read more details in our Portal 2 update blog. Check out the official Portal 2 update trailer: New Features in the Portal 2 Update! New Area: The Laboratory. New Feature: The Portal Gun now unlocks at the start of the game. New Feature: The Atlas now displays portals and allows you to teleport to them. New Feature: You can now backtrack through old areas by using all of the cannons on a portal. New Feature: The water gun is now usable on all models of the water pipes in the game, including steel pipes. New Feature: The Portal Gun is now usable on a level select menu screen. New Feature: There is now a save icon on the loading screen. New Feature: There is now an option to turn off the game's HUD and VFX (in the menu). New Feature: The game's rewind feature now works in all levels of the game. New Feature: The game's time limit now allows you to restart the level after hitting the limit. New Feature: The game's time limit now allows you to continue a level even if you die at the end of the level. New
