## **Timeline Maker Professional [32|64bit] (April-2022)**

Timeline Maker Professional is a software for timetable-making. It enables the creation of project plans with a very simple graphical interface, where each step is made of a predefined container. For each container it is possible to specify the name, the description, the color, the graphic and any other value you like. The container may contain any kind of data, such as a picture, a text, an email, a file, or other projects. Each time a container is added to the timeline it will be displayed with a name and a brief description. The container can be resized, added, removed, with notes, color, and any other value you want. The application has many export formats. It can make a PDF file with all the information, a Gantt chart, a report that can be printed, a Excel file with all the information, a XML file that can be used with any kind of system.
