Illinois House increases grant amount for AARP Illinois. The Illinois General Assembly has increased the amount of lottery aid available to AARP Illinois, the volunteer-run coalition of more than 200 community groups and social service agencies in the state. Last month, the House Appropriations Committee increased the AARP Illinois Lottery Assistance Grant from \$13,885,222 to \$14,733,038. The House also approved a program to provide lottery benefits to developmentally disabled people. Under the new program, Illinois residents with developmental disabilities will be able to buy tickets, which will be used to create an expanded AARP Illinois Program. Lottery proceeds will be used to provide special-needs residents with items such as hearing devices, wheelchairs, and specialized equipment. The lottery grants, in turn, are meant to help fund the memberships, transportation, and other services provided by AARP Illinois. The Democratic-controlled House of Representatives also approved a \$1.5 billion budget for the Illinois Department of Public Health. The state now has the fourth-largest budget in the nation, with an estimated operating surplus of more than \$2.4 billion. Most of the surplus goes to K-12 public schools. The Illinois House also approved a program to allow doctors to help families pay for health care costs by directing some of their practice to skilled nursing facilities and assisted-living facilities.™™ Copyright Amazon.com, Inc. or its affiliates.
